

Employee: Addison Taylor

Addison Taylor was born on January 16, 2007 to Priscilla and Jeff Taylor. She grew up in Monmouth and lived there for three years before moving to Macomb and starting preschool. She has two older siblings, Jake and Lauren, and a younger sister, Kinley. She has two nieces and two nephews and another nephew on the way in September. Addison graduated from Macomb High School in May of 2025. She is now going to Carl Sandburg College in Galesburg to get her associate's degree in radiologic technology and plans to graduate in May of 2028. When Addison is not working or studying, she loves to hang out with friends, go to the gym, go on a coffee run, or just relax whenever she has the time.

She also has a yellow lab named Nala and enjoys getting to take her for walks and playing outside with her. Addison has been working at Everly for two years. One of her favorite parts of this job is spending time talking to the residents and getting to learn about their life stories.

We are very thankful to have had Addison working here at Everly. She is very friendly and a good worker. We wish her the best in her pursuit of a career in radiologic technology.

Everly House Updates:

- At the time I am writing this we have not heard of a start date from the contractors for the new driveway. We are hoping it will happen by the 2nd or 3rd week of August.
- We have put a dark, heat reflecting ceramic film on the bus windows. This will hopefully reduce sunlight exposure to the passengers and help the air conditioners keep it cooler.
- Tom and Jack will be returning this month for the new school year.
- Jodi Schimtz and Carter Chambers are getting married on August 22nd!

"August is like the
Sunday of summer."
